DIGITAL COURSE

Similar to LMS systems, HTML5, Scorm and Tin-Can digital course contents are uploaded to the system and shared with students.

ONLINE TESTING MODULE

The online test module allows tutors to create an unlimited number of questions, tests/exams.

ONLINE STORAGE

All kinds of documents such as pdf, word, power point, drawing etc. can be uploaded to the course contents.

REPORTING AND MANAGEMENT

Register your students and get detailed reports for their access to contents, participation to live lessons and get test results and analysis.

VIDEO COURSE LIBRARY

Any recorded video lesson uploaded in the system is securely accessed by users.

LIVE LESSON

You can give one-on-one live lessons through your PC or mobile device.
